

Screenshots of the Web Application

Payments Matching : UI

First screen - display two boxes to upload respective CSV

The screenshot shows the 'Payments Matching' interface. At the top, a dark blue header contains the text 'Reconciliation Match and resolve payment records with ease.' and navigation links for 'Dashboard' and 'Reports'. Below the header, the main title 'Payments Matching' is displayed, followed by the instruction 'Upload the System CSV and Provider CSV files to reconcile payments.' A light blue banner indicates 'Step 1: Choose CSV files to process'. The main area features two dashed-border boxes: 'System CSV' with an upload icon and the text 'Upload a CSV file', and 'Provider CSV' with an upload icon and the text 'Upload a CSV file'. Below these boxes is a yellow 'Run Match' button. The footer contains the copyright notice '© 2026 Payment Reconciliation Inc.' and a browser status bar showing 'Microsoft Edge'.

Error shown when Run Match button is clicked without any input

This screenshot shows the same 'Payments Matching' interface after an attempt to run the match without uploads. The layout is identical to the first screenshot, but a red error message 'Please upload both the System CSV and Provider CSV files.' is now visible below the upload boxes. The 'Run Match' button remains yellow. The footer and header are consistent with the previous screenshot.

Upload interface opened after clicking on option

After Run Match - Unresolved Records shown in table initially

Clicking on Filter on right hand side loads appropriate data in table

Reconciliation

Match and resolve payment records with ease.
